SHADEMASTER[®]
SHELTER SYSTEMS

Single Skin
Roof Solutions

Sophisticated Outdoor Living

Make the most of your outdoor living space with a Shademaster Shelter System. Whether you are after a patio, carport, alfresco, room extension, gazebo or custom solution, the design possibilities are endless with Shademaster.

Why Choose Shademaster?

Shademaster Shelter Systems provides you with the solutions you need. Achieve the outdoor living space you desire, with quality Australian made roofing in a range of colours.

STYLE

16 colour combinations in flat and W-Pan panel profiles.

VERSATILITY

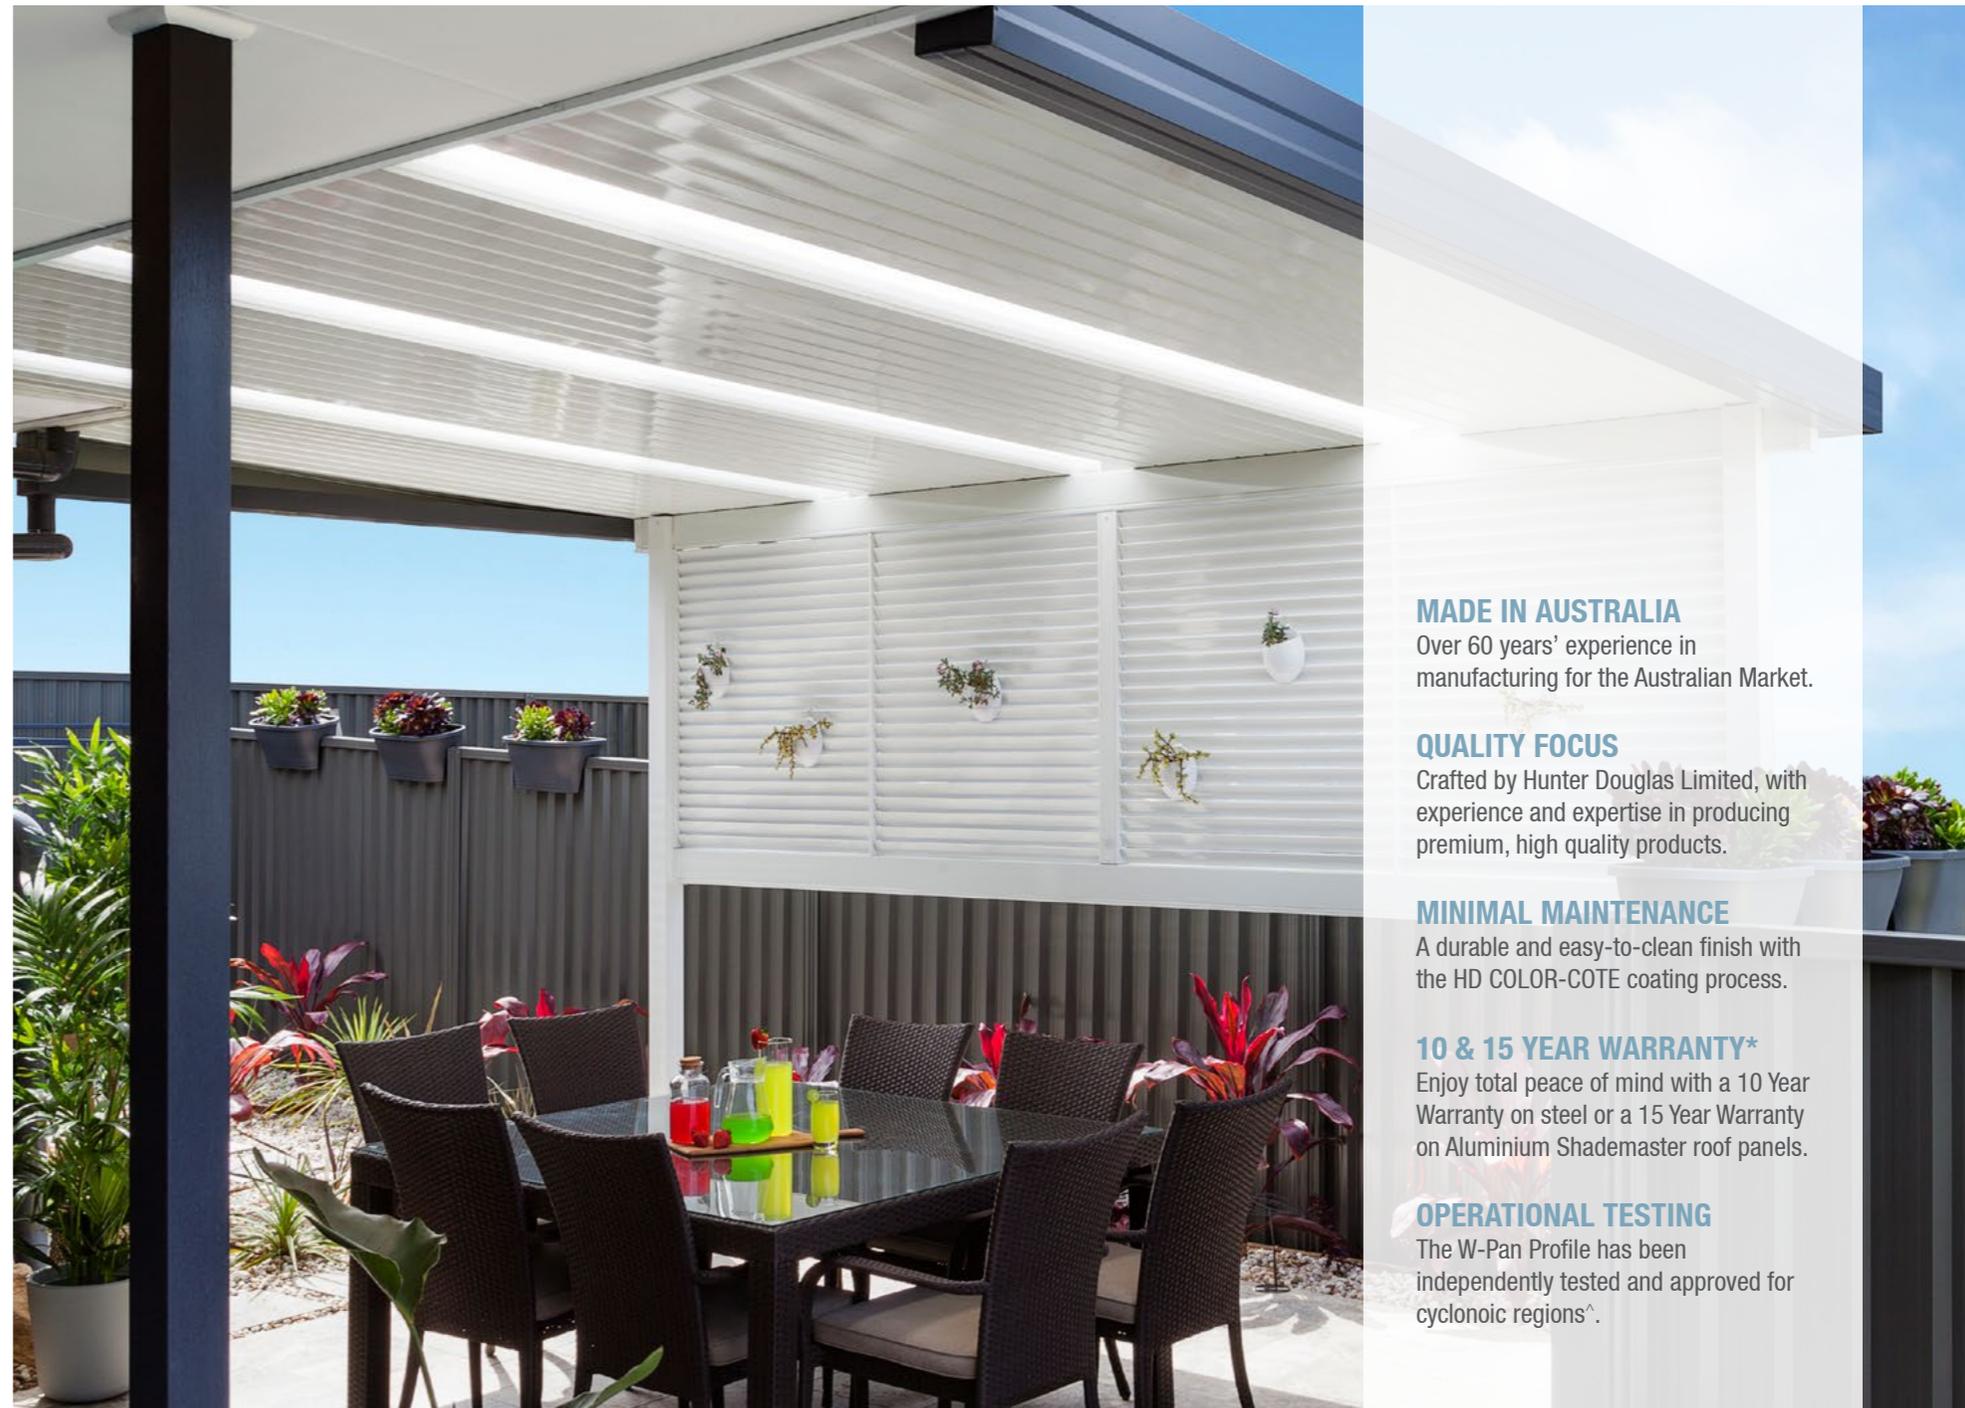

Suitable for a wide range of traditional & modern designs.

FUNCTION

Panels clip together to form a **weather-tight**, virtually undetectable seal.

NATURAL GLOW

Integrate Shademaster NatureLite panels to allow natural lighting.

MADE IN AUSTRALIA

Over 60 years' experience in manufacturing for the Australian Market.

QUALITY FOCUS

Crafted by Hunter Douglas Limited, with experience and expertise in producing premium, high quality products.

MINIMAL MAINTENANCE

A durable and easy-to-clean finish with the HD COLOR-COTE coating process.

10 & 15 YEAR WARRANTY*

Enjoy total peace of mind with a 10 Year Warranty on steel or a 15 Year Warranty on Aluminium Shademaster roof panels.

OPERATIONAL TESTING

The W-Pan Profile has been independently tested and approved for cyclonic regions[^].

[^]Refer to the JCU Report TS740 December 2013. *Conditions apply. See www.shademaster.com.au for warranty document.

The 3 Stage HD COLOR-COTE® Coating Process

The Australian Shademaster manufacturing facility pioneered the coil coating process developing the HD Color-Cote process. This process optimises the roofing quality to ensure your Shademaster roof maintains its premium look.

CORROSION RESISTANT

Built to withstand the harsh Australian outdoors with corrosion resistance properties.

COLOUR RETENTION

One of the finest and most durable modern coatings available.

SMOOTH FINISH

Roller coating allows for a consistently smooth finish every time compared to powder coating.

SUPERIOR HIGH GLOSS

Higher gloss coatings offer more vibrant colour, easy maintenance and enhance fade resistance.

The coating process carried out by Hunter Douglas Limited is designed to meet all appropriate test requirements of AS / NZS 2728-2007 prefinished/prepainted sheet metal products for interior/exterior building applications – performance requirements.

Stage 1

PRETREATMENT

Hot alkaline cleaning of metal followed by roll-on application of chromatic conversion coating, preventing corrosion & improve paint adhesion.

Stage 2

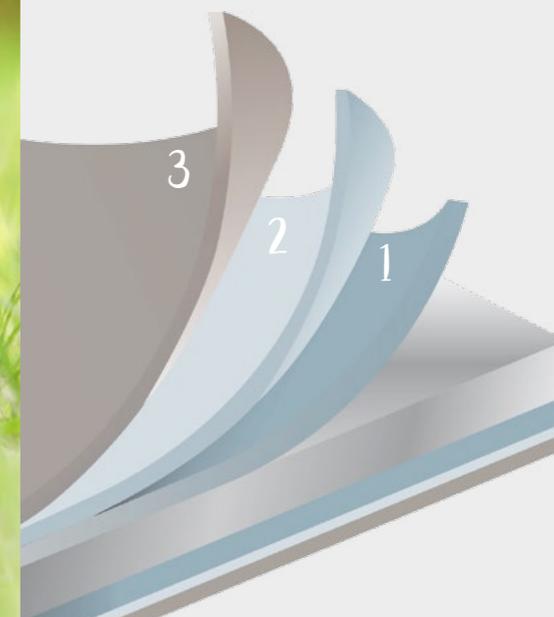

PRIMER APPLICATION

A specially formulated polyester primer for flexibility and corrosion resistance.

Stage 3

FINISH COAT APPLICATION

A polyester-resin top coat designed for greater exterior durability and flexibility.

GABLE ROOF

Allows maximum air and light to flow through your outdoor living area. It can be free-standing or attached to your home.

GABLE & SKILLION ROOF COMBINATION

The spaciousness of the Gable roof design combines well with Skillion roofs to create a unique highlight for any home. It can be free standing or attached to your home.

SKILLION ROOF

Simple and versatile, the traditional Skillion roof design integrates easily with any surroundings. It can be free standing or attached to your home.

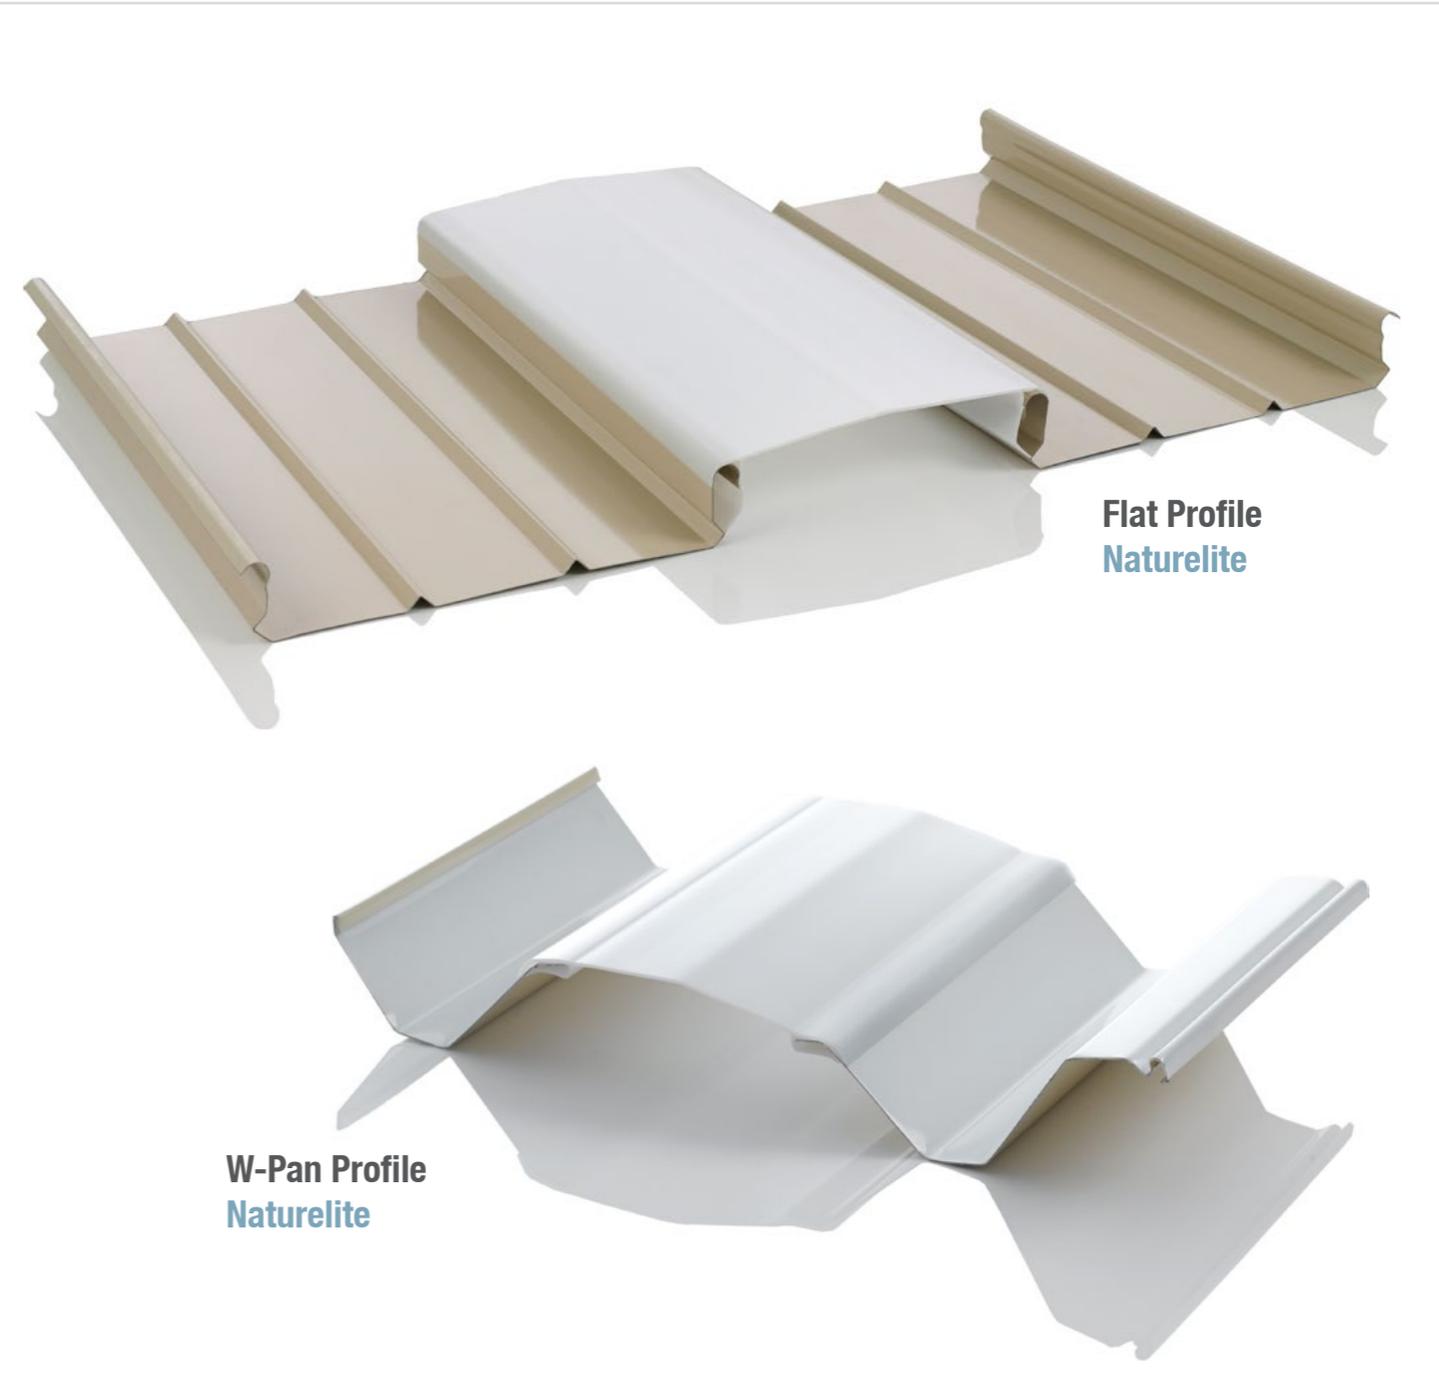

FLYOVER ROOF

High ceilings and minimal framing create open living areas with optimal airflow and plenty of natural light. It is attached and positioned over an existing roof line.

Flexible Design Options

The Shademaster steel and aluminium single skin range is suitable for a variety of structural designs from patios, alfresco areas, outdoor rooms, gazebos, carports, and complete custom designs.

Clever Naturelite System

For letting some light into a dark covered area, Shademaster Shelter Systems offers the perfect solution.

The Naturelite System features translucent panels that integrate with the single skin roof panel to allow natural light to filter through.

Single Skin Roof Profile Options

W-Pan Profile
Yalumba ceiling colour

W-Pan Profile
Robust and long-lasting, the strong W-Pan profile creates outdoor undercover areas built to last.

Customise your look with the choice of 2 Shademaster profile options for your new undercover area.

Each panel is 300mm wide and features a clipping system that locks the panels together, forming a virtually undetectable weather-tight seal.

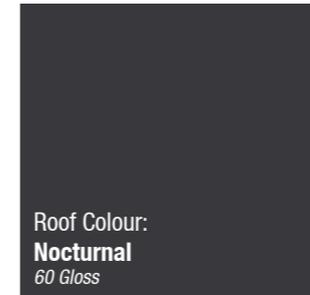

Flat Profile
Replicating a flat 'ceiling' appearance, this profile creates bright spaces by allowing light to easily reflect around the covered area.

Single Skin Colour Options

Customise your Shademaster Single Skin Roof in 3 easy steps.

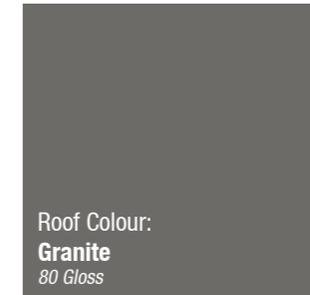

STEP 1: Select Profile
STEP 2: Select Roof Colour
STEP 3: Select ceiling colour
